FROM THE STUDIO OF

**ALBERT H. POSTEL**

126 West 34th Street, New York, N. Y.

DEAR CLIENT:

The Moon Table shows you the signs of the Zodiac through which the moon passes every day during this year, for instance, on January 1st the moon is in the sign Cancer, on the 2nd in Leo, on the 3rd in Virgo, and so on down the column for each day and month of the year.

This table is more accurate than the common Almanac which should not be used for Astrological purposes.

The moon table I send herewith is for 1907, and you will find it an invaluable guide to your life.

This table is of course only for 1907, as the moon's position changes each year, so that you will need a new moon table for each year.

My moon table and "Daily Guide" for 1908 will be ready after November 1st, 1907.

You should send in your order for one early. Price for 1908 table will be 25 cents.

### THE DAILY GUIDE

King Solomon said: "To everything there is a season and a time for every purpose."

There are HOURS when most favorable progress can be made. Each Planet in turn rules the first, eighth, fifteenth and twenty-second hour from **Sunrise**, the others are ruled each in order of their succession, the order being that of the Planets, Sun, Venus, Mercury, Moon, Saturn, Jupiter, Mars. On Sunday the first hour after sunrise is ruled by the Sun, second by Venus, third by Mercury, etc., until the eighth, when the Sun rules again and so on until the twenty-fourth, when it will be found the Moon rules the first hour of the next day, which is Monday. Therefore, for speculation, love, personal affairs you should take that HOUR wherein a favorable Planet rules.

### HOURS RULED BY THE PLANETS

**THE SUN.** The hour of the Sun is good for asking favors, writing letters, signing papers, deeds, wills, leases, contracts, etc., and for buying goods to resell. Seek employment at this hour and deal with those in authority.

**VENUS.** The hour of Venus is good for all purposes, especially for dealing with the

Mrs. Pearl Morton,  
Snowden, Wash.

Dear Client:-

Since your birth occurred as stated, March 28, 1874, you were born in the planetary year of the Moon.

The astrologer finds much of interest in the careers of persons born under your sign Aries, which is the head sign of the fire triplicity. Prominent among people born under this constellation are Henry Clay, the famous orator, Raphael, the painter, Haydn, the musician, Washington Irving, Lew Wallace, Hans Christian Andersen, the writers, and others.

The above date indicates that you are endowed with keen sensibilities. You appreciate music, literature and art, and should be a good judge of melody and harmony. Sweet strains of music when heard, arouse your emotions. Your power of intuition is so well developed that you often understand, without words, the trouble that is weighing upon the heart of another. This quality in the Aries person no doubt is what attracts to them so many loyal friends.

In disposition you are enthusiastic, aggressive, executive, determined and earnest and at times inclined to be headstrong and impulsive. You naturally fall to the place of leader among your friends for it is indicated that you have firm convictions, excellent conversational powers, if developed, and a certain amount of tact.

The faults which would appear to be dominant in you are anger and impetuosity, which are indicative of a lack of patience. I would advise you to cultivate patience which will do much toward bringing into prominence your admirable qualities and developing your character.

You are a natural lover of scientific thought, philosophy and reason. One desiring to influence you would do best to present arguments that would appeal to your reason.

You would originate rather than imitate and in entertaining your friends could devise varied and novel means of amusement. Your friends are as a rule very loyal to you, but I will say more concerning this later in your Horoscope.

Aries persons are natural truth tellers, and abhor deceit and duplicity. They are self-willed, independent and confident, except at times of extreme mental exertion when they are likely to become despondent. I will have more to say concerning the care of the nervous system and general health later.

Your Zodiacal ruler, Mars, tends to bring many changes into your life, and your adaptable nature together with your tendency to attract and hold friends, will be of inestimable value to you in the years to come.

Always strive to do your hardest tasks early in the day and avoid working at night as much as possible.

Your astral colors are red, white and rose-pink.

Your birth stones are the amethyst and diamond.

The position of the Moon at birth has much to do with the characteristics and tendencies which shape the destiny of each human being so the astrologer in casting a horoscope mathematically calculates this position and carefully considers the effect which this lunar influence would have upon the life.

At the time you were born the Moon occupied the celestial house of Leo. This position would tend to uplift you and put you in positions of trust and responsibility. It may place you over others as manager or director and you should strive to use your authority with discretion and good judgment. This position would also incline you to be ambitious, honorable, candid, generous in money matters and popular as a rule with the opposite sex. It would indicate success along medical lines, endows you with a fondness for public life and shows general prosperity in your undertakings. It would favor you with the natural gifts of intuition and genius and lead you to obtain help from people in power.

On those days and nights of the month when the Moon comes to the same position it occupied at birth you will, as a rule, be fortunate for this lunar period is usually favorable for your affairs. At this time your mind will be clearer and more acute for mental work.

The eyes are best treated when the Moon occupies either Cancer or Leo.

Undertakings of a long duration should be started, if possible, when the Moon is in Taurus, Virgo or Capricorn, but small tasks which you desire to finish quickly should be begun when the Moon is in Aries or Cancer.

Those persons whom you meet for the first time when the Moon is in the sign Taurus or Libra are indicated as becoming dependable friends who would lend assistance in times of trouble.

You can easily ascertain what days of the month the Moon occupies Leo and the other Zodiacal signs by consulting the Moon Table which always appears in MODERN MIRACLES Magazine in which I conduct the Department of Astrology. The subscription price is but 50¢ per year. With the yearly Moon Table always at hand you can keep yourself well informed as to the various lunar aspects and see when the Moon occupies a favorable position for your undertaking.

The lunar influences for good would not necessarily be dominant on those days indicated in your horoscope as being unfortunate.

A careful study of this delineation in connection with our magazine, will be of inestimable benefit to you in overcoming your weak points which are obstacles to success and bringing out the best of which you are capable.

In a comparison of those characteristics as shown in your horoscope, you may seem to detect apparent contradictions. But in a careful analysis of your daily life would you not discover that at times you do things contradictory to your usual custom and wonder what prompted you to do so? These contradictions prove the supremacy of certain planetary vibrations. At one time you may be overbearing; at another time, lenient; sometimes merry and glad without a particular reason, at other times sorrowful. So if you will intelligently combine these significations as given and resolve to benefit by astrological guidance, you will receive much help in making your life harmonious and achieving the highest degree of success.

## LIFE AND HEALTH.

The heavenly bodies which are of influence over the destinies of human beings indicate to me that there are a number of diseases to which you may be susceptible. Epilepsy, (sometimes referred to as falling sickness) would need to be guarded against particularly in the early portion of your life. As this is a disease of the nervous system, much care should always be exercised and any severe mental strain such as suspense or nervous excitement avoided.

Apoplexy, if it comes, will effect your health late in life. Careful attention, however, to hygienic laws as to diet, sleep and exercise will do much toward guarding against these diseases, as well as chronic constipation and liver troubles.

Aries people are as a rule, fond of out door sports and exercise in the open air. This would be extremely beneficial to you, and you should make it a point to be out doors as much as possible. You, as well as other people born under the constellation of Aries, will probably be more or less troubled with your head, being subject to sick headaches, dizziness and catarrhal conditions.

A high country would be more beneficial to you than a low one, and a dry rather than a moist climate. Your best years for health are indicated as being your 18th, 27th, 36th, 45th, 54th and 63rd. Especial care should be taken of the health from June 21st to July 22nd also from Dec. 22nd to Jan. 19th. Beware of accident between the dates of Sept. 23rd and Oct. 22nd.

With due and proper care of your health you should live to the good old age of "three score years and ten." Get all the enjoyment possible from life, but keep in mind the old maxim:

"Early to bed and early to rise  
Makes one healthy, wealthy and wise."

## FRIENDS.

You are extremely fortunate in the matter of friends-- as many devoted and loyal friendships are shown in your life-- far outnumbering your enemies. The latter are usually envious of your success, but their bitterness toward you is, as a rule, short lived. One dangerous traitor, however may cause you considerable annoyance.

Beware of overconfidence in persons born under signs antagonistic to your own. These are the "Water Signs"--Cancer, Scorpio and Pisces and rule from June 21st to July 22nd, Oct. 23rd to Nov. 21st and Feb. 19th to March 19th.

Your best friends are indicated as being persons born between Nov. 22nd and Dec. 21st, July 23rd and Aug. 22nd. While you are favored with many friendships, bear in mind that the only way to have a friend is to be one. Try to live so that you will merit the high regard of your true friends.

## FINANCES.

In this day and age of the world when finances play such an important part in the affairs of men and women, when fortunes amounting to millions are sometimes made and lost in a few years and many complicated and intri-

cate matters suddenly demand consideration or attention, it is difficult to give advice for any stated period - for some unusual circumstance may upset an Astrological forecast, just as a comet, dashing like a meteor through space, may change the calculations of the expert Astronomer.

Astrology indicates. I can give you the indications of your Zodiacal Sign and point out the opportunities and most fortunate periods for taking advantage of them, but I cannot compel you to put into execution the advice offered. You must use your good judgment and conscientious endeavor to achieve the highest degree of success.

The early part of your life is destined to be more successful financially than your later years, when you should guard against losing money or making a bad investment. These may be avoided by exercising due care and discrimination. I would advise you to stick to close and conservative investments although they may not hold out such promises of rich returns as those of a more speculative nature.

While in business it may not be advisable for you to take a partner, yet one born between Nov. 22nd and Dec. 21st would most likely prove more satisfactory than one born at any other time. Should you be content to secure a good position at a satisfactory salary rather than embark in business for yourself, I would recommend for you to judiciously invest your savings in mortgages on real estate or land - you may eventually fare better than by taking chances in business. The directions indicated as being most fortunate for you are North, Northeast or West. Great Britain, Germany, Denmark, Poland, Canada or the Northern part of the United States would be favorable locations for you.

As Aries is a sign closely connected with the earth, farming or mining might prove a profitable industry for you - do not invest in mines owned, operated or controlled by others, however, as that might prove risky if not dangerous. Avoid legal complications, lotteries or games of chance as these matters usually result in losses to you.

Do not make any changes while the Moon is in Libra, Cancer or Capricorn - The Moon Table for this year you will find on inside cover page of this Horoscope. The best months for changes or undertaking new ventures are April, August and November. Your unfortunate day of the week is Friday - Your lucky days are Mondays and Wednesdays. From the new to the full of the Moon is more favorable for your affairs than at other times.

Before entering into any new undertaking, study the Moon Table and see that the Moon is in a favorable position. It is best to have a special Horoscope cast before entering into any important matter, so that you may become aware if the planetary vibrations ruling the time are for good or for evil.

#### LOVE, COURTSHIP & MARRIAGE.

The Stars have decreed for you experiences in love affairs that are varied. The fire Sign Aries endows its subjects with warmth of affection. They are as a rule impulsive and at times inclined to be rash. If married too young, inconstancy often results.

I would not advise more than one marriage, although more than one opportunity is shown. The times when the best indications are shown for marriage are your 18th or 24th years.

Astrology guides, pointing out the way to happiness and content, but it cannot compel the individual to follow that advice. The most harmonious domestic life would be a union with one born under the Sign of Sagittarius which rules from November 22nd to December 21st; from June 21st to July 22nd, however, would be harmonious with your date of birth. There would be little danger of separation or divorce in a matrimonial alliance with one born under dates given. You might however be liable to serious domestic difficulty were you to wed a person born under one of your antagonistic signs.

In serious affairs of the heart, it is always advisable to compare the Horoscope of the one you love with your own. The planetary indications will aid you in making the best of life and seizing opportunities which would be conducive to love, contentment and conjugal happiness.

#### CONCLUSION.

I have referred in another place in this Horoscope to your antagonistic Astrological Signs - Now I wish to warn you that it is indicated that at certain times during your life you will meet with considerable abuse or ill treatment from individuals born under these signs. It would thus be advisable for you to compare the birth dates of your acquaintances with your own so as to know when to be on your guard.

Keep your personal secrets from persons born under the Signs of Libra, Capricorn and Cancer, and refuse with determination any present made you by one who would wish to influence you, gain your confidence or arouse your sympathy.

Guard carefully your keepsakes and personal effects for you will doubtless be caused considerable annoyance in the near future concerning same through an acquaintance (feminine) born under an antagonistic sign. There are indications of possible family troubles when you are at the age of 27, 36 or 45 years, and you yourself will probably run dangers due to relatives.

Your best years are indicated as being your 24th, 36th, 48th and 60th. Much traveling will be rendered necessary during your life on account of family matters and certain enemies.

You are richly endowed with friends, but should during the next few years use extra precautionary measures regarding one who is your enemy. Be ever careful of your possessions, as it is indicated that you will never be very fortunate in recovering losses. Turn to good account the advice which I have given you regarding your health, friends and enemies.

Beware of traveling on large bodies of water, and be very careful in taking or using liquid medicines of any sort, especially poisons, that you make no mistake.

Use the talents which God has given you for your improvement. Strive ever to attain that which is honorable and right. Bear in mind your lucky years and fortunate periods, and I bespeak for you more good fortune than falls to the lot of many whom I advise daily.

"To thine own self be true - and it must follow as the night the day, thou canst not then be false to any man."

Sincerely yours,
